

Personal Statement:

I am a Computer Science student currently looking for a placement job, **passionate** about working in the software engineering industry. I am **disciplined, confident** and **dedicated** in every task I carry out, allowing me to improve my **work ethic**. I am a **quick learner** and have a **desire** to expand my knowledge. I enjoy **challenging** myself by stepping out of my comfort zone and being **proactive**. Having a Spanish and Asian background granted me the ability to speak **4 different languages**, allowing me to **communicate** and understand a variety of people from different ethnic backgrounds.

Skills:

Problem-Solver: experienced and solved many problems at various stages of my education, i.e., at A-Level, University.

Programming languages: **HTML, CSS, JavaScript, ReactJS, NextJS, TypeScript, PHP, C#, C++, Java, MySQL/MariaDB** and **Cisco Packet Tracer**

- Familiar with **Agile** and **SOLID** principles

- **Multilingual:** Fluent in English, Spanish, Urdu, Punjabi.
- **Team leadership:** experience in leading teams of 7+ people to complete group projects.
- **Organized:** experience in planning to meet deadlines, allows me to stay **focused** and **motivated**.

Education:

- Completing Final Year in Computer Science at MMU
- On-Target to obtain **First Class**
- **Understand** how to structure your code and make sure that it is **readable** and **efficient**.
- Familiar with the **Agile principles:** I have applied agile methodologies such as **Scrum**, in projects that I have done in university.
- I understand its different **components:**
 - I have carried out **sprint plans** to decide what to do next after revising the **sprint backlog**.
 - I have carried out **retrospective meetings** to assess how each sprint went, to make improvements.

Overall, university gave me an excellent overview of how tasks are carried out in the **real world**.

A Levels: Maths (B), Business (B) and Psychology (B) – Loreto College – Sep 2019 – June 2021
7 GCSEs including: Maths (6), Trip-Science (6) – Lostock Highschool – Sep 2014 – June 2019

Job History:

Currently working as a steward at MUFC and Evri delivery driver. I worked at Primark as a retail assistant and Amazon Fulfilment Centre as a picker. I obtained vast experience on how to work in a **fast-paced** environment with an objective to reach a **team** goal. I learned how to **communicate** with customers and provide excellent customer experience as well as how to **convey** your message within your team. I understood, the power of being **organised** whilst working at Evri. Having all this knowledge and experience I am confident in my ability to **adapt** and learn **quickly** to start **delivering** as soon as possible.

Hobbies/Spare Time:

During my spare time, I create projects with the goal of learning new programming languages and techniques. I enjoy working out, it helps me to reset mentally as well as improve my physical & mental strength. I love watching sports, football, basketball, and my favourite one being F1.
